

The appropriations process allows me to request funding for worthy projects in my district that create jobs and directly benefit Iowans. These projects help provide affordable healthcare, improve Iowa's infrastructure and put Iowans back to work.

Every Iowa taxpayer deserves to know how their tax dollars are being spent. This year, I'm posting every earmark that I request online, to provide additional transparency as Congress makes federal spending decisions.

□ □

Each of my funding requests this year was selected for meeting at least one of these criteria:

- **Creating Jobs**: Projects would save or create jobs in Iowa's First District, helping to boost the economy and put Iowans back to work
- **Meeting Critical Needs**: Common-sense earmark programs that help Iowans meet a critical need

Click on the links below for a list of the requests I will submit for the FY 2010 Appropriations Bills. Requests are organized by county.
